

FIG. 1 is a schematic diagram of a system for controlling a crane. The system includes a crane 10, a pivot controller 14, a valve controller 13, and a computer 16. The crane 10 is connected to the pivot controller 14, which is connected to the valve controller 13. The valve controller 13 is connected to the computer 16. The computer 16 is connected to the pivot controller 14. The pivot controller 14 is connected to the crane 10. The valve controller 13 is connected to the crane 10. The computer 16 is connected to the crane 10. The pivot controller 14 is connected to the crane 10. The valve controller 13 is connected to the crane 10. The computer 16 is connected to the crane 10.
